ESTABLISHING YOUTH SELF-SUFFICIENCY AS A COUNTYWIDE GOAL

On March 2, 2010, a motion by Supervisor Antonovich directed the Chief Executive Officer (CEO), in conjunction with the Departments of Children and Family Services (DCFS), Community and Senior Services (CSS), Mental Health (DMH), Probation, Public Social Services (DPSS), the Community Development Commission (CDC), and other affected departments, to report back in 30 days and quarterly thereafter on establishing "self-sufficiency" as a fourth child welfare outcome goal. The 30-day status update was delivered to your Board on April 2, 2010. The first quarterly report was delivered to your Board on July 6, 2010, and the second quarterly report was delivered on October 19, 2010.

On December 7, 2010, your Board adopted a follow-up motion to establish Youth Self-Sufficiency as a Countywide goal and direct the CEO, in conjunction with DCFS, Probation, DMH, DPSS, CSS, CDC, and all other "child and/or youth-serving" departments, to report back in 60 days on:

- 1) A recommended conceptual plan for Countywide integrated youth self-sufficiency service delivery, from birth to age 21, which incorporates the outcome areas of permanency/housing; social and emotional well-being; education; and career/workforce readiness. The plan should include, but not be limited to:
 - (a) identified unique and joint roles/responsibilities for relevant County departments and community partners; and

"To Enrich Lives Through Effective And Caring Service"

*Please Conserve Paper – This Document and Copies are Two-Sided
Intra-County Correspondence Sent Electronically Only*

- (b) suggested inter-departmental policies/procedures/best practices and administrative measures to track and ensure accountability towards achieving measurable progress in the four self-sufficiency outcome areas;
- 2) Recommendations for pilots to test the merits of integrated self-sufficiency service delivery that include qualitative/quantitative evaluations of results against existing baseline data;
 - 3) A strategic planning process for Los Angeles County's AB 12 protocols, with a timeline for implementation by January 2012; and
 - 4) Identification of opportunities to leverage and integrate existing funding; and exploration and interpretation of new/forthcoming federal and State revenues that will support Countywide implementation of successful integrated youth self-sufficiency service delivery innovations.

As these two motions build upon each other and are inter-connected, this will serve as the response to both motions.

Integrated Youth Self-Sufficiency Service Delivery Model

An eighteen-member workgroup, consisting of representatives from the CEO, DCFS, CSS, DMH, Probation, DPSS, CDC, Commission for Children and Families, children's advocates, philanthropy, non-profit providers, caregivers, and a former foster youth, began meeting in June 2010 to develop a conceptual framework for ensuring that DCFS and probation youth could successfully transition to adulthood and be considered "self-sufficient," and avoid becoming part of the statistics showing that, upon exiting the system, one-half of these youth are unemployed, one-third are dependent on public assistance, one-quarter are incarcerated, and over one-fifth are homeless.^a The resulting framework, grounded in child development research, asserts that the following four key outcome areas must be addressed in order to successfully prepare youth of all ages for adulthood: permanency/housing, education, career/workforce readiness and social and emotional well-being. The framework, therefore, calls upon frontline County staff, providers and caregivers to help DCFS and probation youth, ages birth to 24 years, achieve success in these four outcome areas from the moment they enter the system, in collaboration with their respective familial and community support systems.

^a Courtney, M., Dworsky, A., Terao, S., Ruth, G., & Keller, T. (2005). Midwest evaluation of the adult functioning of former foster youth. Chicago, IL: Chapin Hall Center for Children, University of Chicago.

An integrated service delivery model is currently being formulated whereby County departments and their partners determine how best to coordinate and streamline child and youth assessment, case planning, implementation of services and supports, and monitoring and follow-up processes in order to create efficiencies that maximize resources, reduce duplication of efforts and workload, and more effectively serve the children and youth in their care (Attachment I). This model will be further developed and operationalized throughout the year in order to properly vet its various components and ensure its viability.

In anticipation of this model being created, several County departments and County-affiliated partners have already embraced the idea of working together more effectively to better prepare DCFS and probation youth for self-sufficiency, and have committed to establishing new partnerships, testing pilot programs and activities, and making policy changes that will help achieve this outcome within existing resources (Attachment II). In addition to the departments named in the December 2010 motion, the Los Angeles County Office of Education, Public Library, Office of Child Care, Department of Parks and Recreation, and the Los Angeles Housing Services Authority have volunteered to participate in this initiative by also establishing partnerships, pilots and policies that promote youth self-sufficiency, and will be integral collaborators in ensuring the initiative's success. In a few instances, your Board offices have also seized the opportunity to create demonstration projects which will improve the services and supports that transition-age youth receive.

Some of the key actions to take place this year (detailed in Attachment II) include:

- 1) Increasing the number of housing options for transition-age youth (Activities A2, A3, A4, K2)
- 2) Improving linkages to workforce training and employment opportunities (Activities B1, B2, B3, B4, B5, C10, E1, E2, F4, H1, H2)
- 3) Implementing Countywide an innovative community-based service delivery model employing Transition Skills Advocates who will train youth and caregivers on how to advocate for, access, and utilize support services that promote self-sufficiency (Activity C5)
- 4) Providing mental health assessments and planning services to every probation youth residing at a juvenile camp (Activity D5)

- 5) Integrating efforts to increase the enrollment of young system children under the age of six in early care and education programs (Activities F1, I1, I3)
- 6) Creating a centralized hub for providing educational information, referrals, and support to all County departments working with youth (Activity G1)
- 7) Engaging families before probation youth are released from camp in order to provide parents with the support they need to help their youth succeed in the community and avoid reentry into the system (Activity J4)

As you can see, the departments have taken responsibility for improving the outcomes for these youth in a very meaningful way. In our discussions with departments in development of these action items, we were clear that all identified actions needed to occur within existing resources through efficiencies and/or improved operational functioning at no loss or harm to current programming.

Input and feedback from youth, caregivers, community partners and other stakeholders will be gathered throughout the year by meeting with and connecting to existing community collaboratives, groups and forums. Additionally, consideration will be given to opportunities to incorporate elements of the Strengthening Families model to working with system-involved families. This approach, which is currently being applied in 36 states, works to promote five Protective Factors within families so that they will be able to effectively parent their children, particularly under stressful circumstances. Research has shown that the presence of these five factors (parental resilience, social connections, knowledge of parenting and child development, concrete support in times of need, and children's social and emotional development) reduce incidents of child abuse and neglect. The States that have adopted this approach have done so at little cost by building the development of these factors into existing programs and resources.

This planning process will also include exploring potential policy recommendations for your Board's consideration in areas such as transportation, County departments' responsibility to this population once they have exited care, and other overarching issues.

DCFS/Probation Youth Development Services Redesign

The DCFS/Probation Youth Development Services (YDS) Redesign Implementation Plan presented to your Board in July 2010 is currently underway (Attachment III). That plan was designed to complement the work of the Youth Self-Sufficiency goal, and is

being modified as necessary to ensure its continued alignment. As part of this implementation, Transition Resource Centers (TRCs) that serve transition-age youth will be evaluated to determine the best practices for meeting the needs of these youth. If, in fact, these TRCs are found to be useful, YDS will explore ways of expanding them within its current budget, in accordance with those best practices.

YDS is also brainstorming ideas for connecting with transition-age youth who could benefit from additional assistance. Promising ideas include establishing a hotline number, using social networking sites, and encouraging the creation of youth-led youth groups. As of January, one such youth-led Youth Council has been formed, and has begun reviewing the Youth Self-Sufficiency conceptual framework. Further, the California State Ombudsman for foster youth has committed to attending one of their upcoming meetings.

AB 12 Strategic Planning Process

The State has begun its three-tiered AB 12 implementation process, which includes a Steering Committee, Coordinating Leadership Team, and five Focus Area Teams. Currently, these entities have started drafting some of the proposed rules and policies which will be shared with the Focus Area Teams and stakeholders for comment and input. Monthly stakeholder meetings will begin in March to share information about the process and vet policy proposals. The State plans on issuing All County Letters and other informational materials by October 2011.

Los Angeles County has a number of representatives that are leading and/or serving on these various Committees/Teams. To ensure that the County is both well-represented and coordinated, the Self-Sufficiency Workgroup is creating an AB 12 subcommittee to be co-chaired by DCFS and the Alliance for Children's Rights, one of the Bill's authors. This committee will begin meeting this month, and will include all of the Statewide AB 12 representatives from the County, members of the Self-Sufficiency Workgroup and other key stakeholders. Their focus will include identifying ways to meet the needs of DCFS and probation youth within existing funding.

Separately, it is important to note that Governor Brown's proposed Fiscal Year 2011-12 Budget includes a Realignment Proposal that would transfer various programs from the State to counties, including Foster Care and Child Welfare Services programs. The proposed realignment of these programs is being carefully assessed for any potential impact on the implementation of AB 12 and other State-mandated programs.

Leverage Existing Resources and Identify New Funding Opportunities

Eighteen County departments and/or County-affiliated agencies across all five County Clusters have completed an estimated funding matrix of programs/services that could potentially serve DCFS and/or probation youth, ages birth to 21 years, help improve their overall well-being and, ultimately, achieve self-sufficiency (Attachment IV). Throughout this planning process, this matrix will be used as a guide for determining how best to utilize and align existing resources in implementing the plan. An example of revenue realignment that is already being explored is between DCFS and the Department of Public Health (DPH) and involves the DCFS Alcohol/Drug Testing Program that serves biological parents and primary caregivers. DCFS is investigating the idea of reallocating \$1.4 million a year in funding for this program to DPH in order to reap some significant programmatic and fiscal benefits, and will be engaging both key internal and external stakeholders in discussions about this potential new collaboration.

Supervisorial Districts 1 and 5 are collaborating on a demonstration project that will provide housing to transition-age youth who are homeless or at-risk of becoming homeless within their districts (Attachment II, Activity K2). Each Board Office is contributing \$2.2 million of their Homeless Prevention Initiative funding to support this effort. This funding could potentially leverage other Federal and State revenue streams, depending on the grantees' program design and the services provided.

Creating an Evaluation Mechanism

As reported to your Board on October 5, 2010, the CEO's Service Integration Branch is partnering with the California Department of Social Services and the University of Pennsylvania on a grant received by the Hilton Foundation to conduct an outcomes study on former Los Angeles County DCFS and probation youth to see how they fare after leaving the system. This study will analyze County department service patterns and usage of former system youth who left the County's care between 2002 and 2005, in order to identify possible service redundancies and potential enhancements to improve overall service effectiveness and efficiency. The results of this study should be available this summer.

The National Youth in Transition Database requirements have been implemented within YDS' existing database so that outcome data on transition-age youth up to age 21 can be accurately captured. The outcomes areas now being tracked are: 1) Employment and other sources of income; 2) Educational attainment; 3) Permanent relationships with adults; 4) Housing; 5) High-risk behavior; and 6) Access to health care. As these

mandated outcome areas closely mirror those of the County's youth self-sufficiency initiative, they will significantly help to assess whether or not the County is making real progress in preparing our youth for self-sufficiency and adult success.

As implementation of this initiative is rolled out, activities will be linked to performance indicators so that the outcomes for these youth can be appropriately monitored. Phase 1 of the evaluation will involve measuring the progress of the 55 activities listed in Attachment II against the operational indicators included. Phase II will include linking activities to performance outcome indicators identified through existing processes like DCFS' Quality Services Review (QSR), in order to determine whether or not the partnerships, pilots and policies created through this initiative are effective in improving youth self-sufficiency outcomes. The goals of this initiative closely align with the status indicators detailed in the QSR process: 1a) Safety – Exposure to Harm, 1b) Safety – Harm to Self/Others, 2) Stability, 3) Permanency, 4) Living Arrangement, 5) Physical Health, 6) Emotional Well-being, and 7) Learning and Development, as well as the Core Practice Indicators: 0) Framework for Understanding Needs, 1) Engagement, 2) Voice and Choice, 3) Teamwork, 4) Assessment and Understanding, 5) Long-Term View, 6) Planning, 7) Supports and Services, 8) Intervention Adequacy and 9) Tracking and Adjustment. QSR uses in-depth case reviews, inquires, patterns of indicators, and local focus group and stakeholder interviews to determine what is working and what systemic improvements could be made to achieve better results in the future.

If you have any questions or need additional information, please contact me, or your staff may contact Kathy House, Assistant Chief Executive Officer, at (213) 974-4530 or via e-mail at khouse@ceo.lacounty.gov.

Youth Development Services Redesign Implementation Plan

1. Expedite check request processing
 - o Work with Chief Executive Office (CEO) and Auditor-Controller
 - o Set a policy for ensuring this process becomes institutionalized
2. Create Youth Councils at each Transition Resource Center (TRC) and/or other geographically desirable locations
 - o Work with California Youth Connection (CYC) and Foster Care Alumni Association (FCAA) on establishing
 - o Pilot at least one Youth Council
3. Create a policy for expanding the comprehensive case planning process to include the five overarching goals within the planning process
 - o Start with Permanency Planning Conferences, Transition Conferences and other non-emergency meetings
 - o Nina Powell-McCall to create language
4. Enforce the accountability for Transitional Independent Living Plan (TILP) completion through Supervising Children's Social Workers and include TILPs as part of the Quality Services Review
 - o Department of Children and Family Services (DCFS) to determine
 - o Create a template for the TILP Standard against which the quality of TILPs should be measured; the inclusion of youth in the completion of TILPs must be a part of this Standard
 - o Review the current TILP training and modify as necessary
5. Ensure the ability to meet the immediate financial needs of youth
 - o Completed for Fiscal Year (FY) 2009-10
 - o Begin planning for FY 2010-11 to address the projected budget shortfall
 - o Convene a meeting with CEO budget analysts and key partners to develop a contingency plan if the State budget is not signed or gets cut
6. Ensure that the Youth Development Services (YDS) budget is proactive
 - o Needs to be informed by Youth Councils and program evaluation data (after Youth Councils are formed)
 - o Schedule regular Independent Living Program (ILP) budget meetings to:
 - Discuss both immediate budgetary concerns and future planning on an ongoing basis
 - Review the line item budget and make recommendations about discretionary funding
 - Discuss upcoming contracts before they are renewed or extended
 - Review outcome data on existing contracts
 - Review the Budget Status Report on a quarterly basis
 - Prioritize budget according to age and types of services as appropriate
 - o Schedule meetings before any milestone dates of when proposed recommendations need to be completed by

7. Ensure that at least 20 percent of YDS funds are unencumbered and can be used as discretionary funding (review annually)
 - o Rhelda Shabazz to provide information regarding budgetary legal restrictions
 - o Kathy House to research amending contract language to allow delegated authority
8. Evaluate Transitional Housing Placement Program to determine the necessity for future funding
 - o To be conducted by the CEO/DCFS
9. Explore the feasibility of transferring the administration of housing programs out of DCFS
 - o CEO to conduct cost-analysis
 - o Complete provider interest survey (Los Angeles Homeless Services Authority)
 - o Need to ensure that there is not a reduction in current bed capacity nor a disruption in service provided to youth
 - o Need to ensure that service levels remain equal to or better than they are currently
 - o Explore opportunities to create scattered site housing through Notice of Funds Availability processes
 - o Identify contracting deadlines
10. Increase outstationed YDS staff into department regional offices and the existing nine TRCs
 - o Robby Odom to provide staffing list
 - o Robby Odom to compile data on number of youth served per TRC
 - o Robby Odom to compile data on breakdown of youth by age per regional office
 - o Robby Odom and Michael Verner to compile list of current YDS staff mandates
11. Explore the feasibility of centralizing contracting, auditing and finance functions into the larger respective department sections
 - o To occur in conjunction with YDS staffing decisions
12. Build the capacity of all nine existing TRCs to become full service, one-stop shops with the ability to access services from multiple County agencies
 - o CEO Real Estate Division to review the existing agreements
 - o Discuss resource allocation with other County Departments
13. Utilize Youth Councils to deliver peer-based life skills workgroups at the TRCs
 - o Need to allocate funds for refreshments, staffing, miscellaneous costs
 - o Work with private partners to identify funds
 - o Work with CYC and FCAA to develop the structure
14. Explore the feasibility of utilizing alternative life skills models and multiple tracks for service delivery (including home settings and natural environments)
 - o Use of transition advocates
 - o Providing a higher teen-rate pay for caregivers
 - o Working with caregivers to teach life skills at home
 - o Explore models allowing for more youth to be served and with greater consistency
 - o Rhelda Shabazz to provide ideas of providing life skills using a model similar to family preservation
 - o Create a workgroup co-chaired by the Children's Commission and Public Counsel to develop a plan for delivering services for next FY
 - Plan will incorporate input from stakeholders

15. Ensure YDS has a comprehensive database that tracks contacts and services provided to each youth
 - o Analyze existing fields and any missing data
 - o Align with National Youth In Transition Database and other data mandates
 - o Explore linkages to other existing systems

16. Train workers and caregivers on the unique needs of teenagers
 - o Incorporate into existing Foster and Kinship Education Programs for caregivers
 - o Incorporate into existing departmental staff trainings

ATTACHMENT IV

Los Angeles County Programs Potentially Serving DCFS/Probation Youth Ages 0-21

AGENCY	PROGRAM	ELIGIBILITY REQUIREMENTS	ELIGIBLE SERVICE CATEGORY X (Currently provide) O (could provide)	BUDGET INFORMATION (\$)					MOE/ Match (N/M)	FY 2009-10 Unused Funds (N/M)	FY 2009-10 Projected	FY 2009-10 Budget	FY 2008-09 Actual	FY 2008-09 Budget
				Federal	State	Other								
Arts Commission	Arts for All: A Countywide initiative that provides policy changes and educational initiatives to institutionalize arts education in dance, music, theatre, and the visual arts for all public school students in grades K-12.	6-12th graders	X					X			632,000	632,000	814,000	843,000
Community Development Commission (CDC)	City of Industry Special Needs Set-Aside (Capital Development): Per state law, 20 percent of the City of Industry's tax-increment funds are set aside to build affordable housing. Because the City of Industry has no zoning for housing, funding is used to create new housing projects within a 15-mile radius of the city's borders. Special Needs housing must set aside 35 percent of the units to serve specific special needs populations earning at or less than 50% of the Los Angeles County median income, inclusive of transitional & permanent housing for TAY.	Ages 18-25; must be homeless or at risk of homelessness; emancipated from dependency/delinquency systems; been in leaving long-term institutional care; or experienced first psychotic break; geographically limited to 15-mile radius of the City of Industry												
CDC	CDBG - Peace4Kids: Through educational courses, activities, field trips, life skills and mentorship, Peace4Kids (a non-profit agency) assists youth in developing the skills needed to become self-sufficient adults. Foster and at-risk youth learn conflict resolution, self-expression, health and hygiene, and social skills. Through its Emancipation Services Program, Peace4Kids provides support and services to current and former foster youth between the ages 12-24 that enable them to access the most basic and vital of community services, during the years before and after emancipation. Sheriff	The Youth Activities League (YAL) program: Offered at 16 youth centers throughout the County of Los Angeles. Operated by Deputy Sheriffs from the local patrol station, these YALs provide educational tutoring, computer training, cultural field trips, sports activities, and character building for "at-risk" children ages 8-17. Youth participants enrolled in this program are exposed to positive relationships with deputies, and find a sense of belonging with other youth participants their age. This after-school program offers a safe environment for young people during the hours of the day when most juvenile crime is committed (3-7 p.m.). Approximately 5,000 children from a variety of communities are serviced daily through this program.	Ages 8-17	X	X			X	701,007	701,007	841,069	841,069	100%	N
Sheriff	Vital Intervention and Directional Alternatives (VIDA): A cognitive behavior based re-directional program for male and female youth who have been assessed with a medium to high recidivism risk. VIDA focuses on several issues: healthy living, academic and vocational achievement, truancy reduction, increased literacy, work force preparation, improving parental relationships, and preventing substance abuse. VIDA works with the Probation Department, juvenile courts, various school districts, and a wide range of CBOs to increase accountability and provide services. The program requires youth to attend 16-weeks (160 hours) of various educational courses and training, while their parents are required to attend 32 hours of parenting classes. The program is funded via an enrollment fee of \$75 and is supported by the Sheriff's Youth Foundation. VIDA holds classes at eight sites throughout the County for approximately 600 to 700 families per year.	Ages 11 to 17-1/2	X	X	X	X	X	52,500	52,500	52,500	52,500	100% IWF	N

Sheriff/ Offender Services Bureau (OSB)	The OSB is comprised of five units which are the Business Management Unit (BMU), Community Transition Unit (CTU), Inmate Programs Unit (IPU), the Education Based Incarceration Unit (EBI), and the Jail Enterprise Unit (JEU). While each of these units operate in distinct areas of expertise, the services provided by these units are collectively aimed to meet the needs of inmates who seek to leave gang life, face drug and alcohol addiction issues, have educational needs, seek spiritual counseling, face a life battling HIV, require job skills, and need housing upon release. OSB is funded by the Inmate Welfare Fund and provides a mechanism through which this Department continues to strive to achieve successful re-entry into society for Los Angeles County inmates, reducing recidivism, reducing incidents of jail violence, and increasing public safety. These services are available to all inmates in custody, including those between 18 and 24 years.	X	X	O	X	X	O	X	25,029,260	25,029,260	51,971,890	51,971,890

Endnotes:

- (1a) TAY is an eligible special needs population in the special needs set-aside for housing development, but there is no specific allocation for TAY
- (1b) Projects serving TAY are eligible for capital funding (CDC) and services funding (LAHSA) through ESF, but there is not a TAY-specific allocation
- (1c) Home funds can be used for TAY housing, but there is no set-aside allocation
- (1d) HH-FF Program is multiple-year. Contracts started in FY 08-09 and are funded for 3 years. The projected expenditures represent actual expenditure to date.
- (1e) These projects serve various age groups and population. Service not limited to exclusively to TAY but agency has reported TAY being served.
- (2a) For Medical Hub Clinics, budget listed is Medical Hub "Expansion Services" budget only. There are some Medical Hub costs included in other budgets.
- (3a) Offers HIV testing services serving youth 12 and over, but there are no specific programs targeting youth.
- (3b) OAPP is unable to determine how many youth are served per agency and is not able to estimate a cumulative budget.
